The Export Administration Regulations require you to take the following actions when exporting under the authority of this license.

- A. Record the Export Control Classification Number in the block provided in the Automated Export System (AES).
- B. Record your validated License Number in the block provided by AES.
- C. Place a Destination Control Statement on all commercial invoices for shipments of items on the Commerce Control List.

CONDITIONS:

1.
Items subject to the EAR and within the scope of this license may not be reexported or transferred (in-country) unless such reexport or in-country transfer is (i) authorized by this license, or another license or other approval issued by the U.S. Government; (ii) authorized by a license exception or other authorization under the Export Administration Regulations (EAR); or (iii) to a destination, end user, and end use that would be "NLR" (No License Required) under the EAR.
2.
For each shipment sent under this license, the exporter must retain documentation identifying the specific commodity, quantity, value, and party names of the items to be exported. As set forth in Part 762 of the Export Administration Regulations, such documentation shall be retained and made available to the U.S. Government for production and inspection upon request.

RIDERS:

1.
License Exception RPL (15 CFR 740.10) may permit future one-for-one replacement of parts, components, accessories or attachments for items specified on this license. Export or reexport of parts, components, accessories or attachments that improve or change the basic design characteristics, e.g., as to accuracy, capability, performance or productivity of the equipment or other end item upon which they are installed, is not authorized.
2.
The licensee is reminded that a BIS export or re-export license does not constitute authorization by, or satisfy the import or export licensing requirements of, Singapore or of the country/territory of ultimate destination. Exporters are reminded that it is a "best practice" to ensure that they or their trading partners obtain any required foreign authorizations prior to shipment.
3.
This replaces license D1279764. Attach this license to the previous license and retain them in your files as required by part 750.7(h)(4) of the Export Administration Regulations.
